2. Basis of presentation of financial statements

2.1 Basis of presentation

Declaration of Conformity

The accompanying consolidated financial statements of the Group have been prepared in accordance with Turkish Accounting Standards / Turkish Financial Reporting Standards ("TAS/TFRS") promulgated by the Public Oversight Accounting and Auditing Standards Authority of Turkey ("POA") that are set out in the 5th article of the communiqué numbered II-14.1 "Communiqué on the Principles of Financial Reporting In Capital Markets" ("the Communiqué") announced by the Capital Markets Board ("CMB") on 13 June 2013 and published in Official Gazette numbered 28676.

Condensed interim consolidated financial statements as of and for the period ended September 30, 2015 are prepared in accordance with the Turkish Accounting Standard No.34 Interim Financial Reporting. Furthermore condensed interim consolidated financial statements of the Group do not include all the information and disclosures required in the annual financial statements, therefore should be read in conjunction with the Group's annual financial statements as of December 31, 2014.

The consolidated financial statements prepared as of and for the period ended September 30, 2015 were approved in the Board of Directors meeting dated 9 November 2015. General assembly has the right to amend the financial statements prepared in accordance with the legal regulations and these consolidated financial statements.

Preparation Form of Financial Statements

The Company, its subsidiaries and its Joint Venture registered in Turkey complies with the principles and provisions issued by the CMB, Turkish Commercial Code ("TCC"), Tax Law, and provisions of Uniform Chart of Accounts issued by Ministry of Finance in keeping its accounting records and preparing official financial statements. The subsidiary operating in abroad prepares its legal financial statements in compliance with the law and regulations, which are valid in the country that it operates in. The consolidated financial statements based on legal records and stated as TL are prepared by being subjected to certain amendments and classifications in order to properly reflect the situation of the Group pursuant to Accounting Standards of Turkey published by POA.

The accompanying consolidated financial statements of the Group have been prepared in compliance with CMB's "Announcement on Financial Statements and Footnote Formats" dated June 7, 2013.

Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in TL, which is the functional currency of Company and the presentation currency of the Group.

2. Basis of presentation of financial statements (continued)

Financial statements of subsidiaries operating in countries other than Turkey

Financial statements of subsidiary operating abroad Turkey are adjusted to the TAS/IFRS promulgated by the POA to reflect the proper presentation and content. Subsidiary’s assets and liabilities are translated into TL from the foreign exchange rate at the reporting date and income and expenses are translated into TL at the average foreign exchange rate. Exchange differences arising from the translation of the opening net assets and differences between the average and balance sheet date rates are included in the “currency translation difference” under the shareholders’ equity.

2.2 Consolidation principles

- a) The consolidated financial statements include the accounts of the parent company, Polisan Holding, and its Subsidiaries and Associates on the basis set out in sections (b) to (f) below. The financial statements of the companies included in the consolidation have been prepared as of the date of the consolidated financial statements and are based on the statutory records with adjustments and reclassifications for the purpose of presentation in conformity TAS/IFRS promulgated by the POA.
- b) The Subsidiary is the Company in which Polisan Holding has the power to control the financial and operating policies for the benefit of Polisan Holding either (a) through the power to exercise more than 50% of voting rights relating to shares in the companies as a result of shares owned directly and indirectly by itself, or (b) although not having the power to exercise more than 50% of the voting rights, through the exercise of an actual dominant influence over the financial and operating policies. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The balance sheets and income statements of the Subsidiaries are consolidated on a line-by-line basis and the carrying value of the investment held by Polisan Holding and its Subsidiaries is eliminated against the related equity. Intercompany transactions and balances between Polisan Holding and its Subsidiaries are eliminated during the consolidation. The nominal amount of the shares held by Polisan Holding in its Subsidiaries and the associated dividends are eliminated from equity and income for the period, respectively.

Subsidiaries are consolidated from the date on which the control is transferred to the Group and are no longer consolidated from the date that the control ceases.

- c) Joint Venture is the entity, which is subject to the control of one or more parties along with Polisan Holding, carrying out an economic activity under contract. Polisan Holding exercises such joint control through direct and indirect voting rights related to the shares held by itself.

“TAS 11 Joint Arrangements”, effective for the annual periods on or after January 1, 2013, supersedes “TAS 31 Shares in Joint Ventures” and requires the application of the equity method for the consolidation of interests in joint ventures in accordance with “TAS 28 Investments in Associates and Joint Ventures”.

Under the equity method, the investment in a joint venture is initially recognised at cost and the carrying amount is increased or decreased to recognise the investor’s share of profit or loss of the investee after the date of the acquisition. The investor’s share of the profit or loss of the investee is recognised in the investor’s profit or loss. Distributions (dividends etc.) received from an investee reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for the change in the investor’s proportionate interest in the investee arising from changes in the investee’s other comprehensive income.

Ownerships out of the scope of the consolidation are shown in Note 10.

2.3 New and revised International Financial Reporting Standards:

The accounting policies adopted in preparation of the interim condensed consolidated financial statements as at September 30, 2015 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of January 1, 2015. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

(i) The new standards, amendments and interpretations which are effective as at January 1, 2015 are as follows:

*Annual Improvements to TAS/TFRSs
TAS 19 Defined Benefit Plans: Employee Contributions (Amendment)
Annual Improvements - 2010–2012 Cycle
Annual Improvements – 2011–2013 Cycle*

The amendments will not have any impact on the financial position or performance of the Group.

(ii) Standards issued but not yet effective and not early adopted

Standards, amendments and interpretations to existing standards that are issued but not yet effective up to the date of issuance of the condensed interim consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, after the new standards and interpretations become in effect.

- TFRS 9 Financial Instruments – Classification and measurement
- TFRS 11 Acquisition of an Interest in a Joint Operation (Amendment)
- TAS 16 and TAS 38 - Clarification of Acceptable Methods of Depreciation and Amortization (Amendments to TAS 16 and TAS 38)
- TAS 16 Property, Plant and Equipment and TAS 41 Agriculture: Bearer Plants (Amendment)
- TAS 27 Equity Method in Separate Financial Statements (Amendment to TAS 27)
- IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)

2. Basis of presentation of financial statements (continued)

- IFRS 10, IFRS 12 and IAS 28: Investment Entities: Applying the Consolidation Exception (Amendments to IFRS 10 and IAS 28)
- TAS 1: Disclosure Initiative (Amendment to TAS 1)
- Annual Improvements to TFRS - 2012-2014 Cycle

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA):

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adapted/issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

- Annual Improvements – 2010–2012 Cycle (IFRS 13 Fair Value Measurement - Reasons for Decision)
- IFRS 15 Revenue from Contracts with Customers
- IFRS 9 Financial Instruments - Final standard (2014)

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

2.4 Comparative information and restatement of prior year financial statements

The accompanying financial statements are prepared comparatively to the previous period in order for the determination of the Group's financial position, performance, and cash flow trends. When there is a change in the presentation and reclassification of the items of the financial statements, the Group reclassifies the financial statements of the previous period to conform the comparability and discloses information related to these matters.

The Group made the below stated reclassifications in accordance with the communication of CMB related to the financial reporting in the consolidated statement of profit or loss and other comprehensive income for the period ended September 30, 2014:

- Exchange difference income arising from trading operations amounting to TL 7.015.408 is reclassified from financial income account into other operating income account,

for the period ended January 1 - September 30, 2015 (continued)
(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)****2. Basis of presentation of financial statements (continued)****2.5 Changes and errors in accounting policies/estimates**

Significant changes in accounting policies and significant accounting errors are applied retrospectively and prior period financial statements are restated. If changes in accounting estimates are only for a period, changes are applied to the current year but if the changes in the estimates are for the following period changes are applied both to the current and future years prospectively.

IAS 1 requires that in case of a company makes retrospective amendments in its financial statements, the opening balances of the financial statements which is comparatively presented the earliest period, should also present comparatively as it has been amended. Therefore the Group presents the opening statement of financial position which includes the effects of the following restatements;

2. Basis of presentation of financial statements (continued)

2.5 Changes and errors in accounting policies/estimates

- A: In the prior periods, group had recognized advertising and promotional items as inventory. In 2015, the Group reconsidered that the future economic benefit of related items is unattainable and accordingly expensed these items.
- B: The fair value of the land tenure right related with the port area which is leased with an agreement signed between Poliport, Ministry of Finance National Estate Head Office and Turkish State Railways was determined with an appraisal report in 2011 by using the discounted cash flow method and this value was recognized in the consolidated financial statements. In 2015, the Company reconsidered that the land tenure right mentioned above does not fit the criteria about fair value recognition in accordance with TAS 38. Therefore this amount is released from intangible assets and revaluation and reclassification funds beginning from January 1, 2014 consolidated statement of financial position.
- The amounts released from intangible assets and revaluation and classification fund as of January 1, 2014 and December 31, 2014 are TL 5.930.804 and TL 4.349.259 respectively.
- C: In the year 2015, the Group recognized the deferred tax effect of the retrospective adjustments beginning from January 1, 2014.
- D: In the year 2015, the Group management noticed that vacation pay liability amount is significant and recognized the related amount in long term provisions account in consolidated statement of financial position beginning from January 1, 2014.
- E: The Group's investment properties were recognized with their fair values in the first time consolidated financial statements prepared in accordance with TAS/IFRS and the difference between cost of these properties and their fair values are recognized under revaluation and classification account. As a result of the re-assessment made by the Group in accordance with TAS 40, related revaluation surplus amounts is reclassified to retained earnings in the consolidated statement of financial position beginning from January 1, 2014. The reclassified amounts are TL 126.180.282 in the consolidated financial statements as of January 1, 2014 and December 31, 2014.
- F: Current period profit and loss effects of restatements explained in A and C items are recognized in related income statement accounts.

2.6 Offsetting

Financial assets and liabilities are offsetted and reported in the net amount when there is a legally enforceable right or when there is an intention to settle the assets and liabilities on a net basis or realize the assets and settle the liabilities simultaneously.

2.7 Summary of significant accounting policies

Significant accounting policies used in preparing condensed interim consolidated financial statements of the Group for the three months period ended September 30, 2015 have been prepared in accordance with the illustrative financial statement and user guide issued in accordance with the decision taken in CMB's 20/670 numbered meeting on June 7, 2013. Accordingly, these condensed consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2014.

2. Basis of presentation of financial statements (continued)

2.8 Seasonality in operations

Operations of the companies within the consolidation may show increase or decrease as of periods. Thus, the results of the three months period ended September 30, 2015 may not be an indicator for the whole year.

2.9 Convenience translation into English of financial statements originally issued in Turkish

The accounting principles described in Note 2 (defined as Turkish Accounting Standards/Turkish Financial Reporting Standards) to the accompanying financial statements differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board with respect to the application of inflation accounting, certain reclassifications and also for certain disclosures requirement of the TAS/TFRS promulgated by POA. Accordingly, the accompanying financial statements are not intended to present the financial position and results of operations in accordance with IFRS.

3. Business combinations

Provision for employee termination benefits

In accordance with existing social legislation in Turkey the Company is required to make lump-sum payment to employees whose employments are terminated due to retirement or for reasons other than resignation or misconduct except the ones who are subject to press regulations. In addition, under the existing Social Security Law numbered 506, Clause 60 of which was amended by the Labor Laws dated 06.03.1981, Numbered 2422 and dated 25.08.1999, Numbered 4447, companies are also required to pay legal severance payments to each employee who has earned the right to retire by receiving severance payments.

The severance payment for each year of service is one month salary and this amount is limited to a maximum of TRY 3.828,37 (December 31, 2014: TRY 3.438,22) as of September 30, 2015.

The severance payment liability is not legally subject to any funds.

The severance payment liability is calculated based on the estimation of the present value of the Group's potential future liability arising from the retirement of the employees. IAS 19, in line with the "Employee Benefits", requires the entity to develop its liabilities within the context of the defined benefit plans using actuarial valuation methods. In accordance with this, the actuarial assumptions used for the calculation of the total liabilities are defined below:

The main assumption is to increase the maximum liabilities for each service year parallel to the inflation. Therefore, applied discount rate represents the expected real rate, which is adjusted for inflation effects. As of September 30, 2015, provisions in the attached financial tables are calculated by estimating the present value of the potential future liability, which stems from the retirement of the employees. As of September 30, 2015, the provisions are calculated by 3,08% real discount rate (December 31, 2014: 3,08 % real discount rate) based on the assumption of an annual 5,50% inflation rate and 8,75% discount rate. The estimated severance payment amount, which is not paid due to the voluntary resignations and that remains with the Group, is also taken into consideration. The probability of continuing to work on average is calculated as 92,44% (December 31, 2014: 95,37%) for the calculation of Group's severance payment liability and discounted severance payment provisions are calculated based on this rate.

Polisan Hellas SA reserves have been calculated assuming an annual inflation rate of 1.75% and a discount rate of 3.20%.

18. Capital, reserves and other equity items (continued)

Restricted Reserves

General reserves comprise prior years' undistributed income and legal reserves. The legal reserves are appropriated in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of statutory profits at the rate of 5 % per annum, until the total reserve reaches 20% of the paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in share capital. The legal reserves are not available for distribution unless they exceed 50% of the paid-in share capital but may be used to offset losses in the event that the general reserve is exhausted.

Share Premium/discounts

Holding offered 5,34% of its paid-in capital to the public on 16-17-18 May 2012, representing TL 19.750.000 nominal shares at a price of TL 2,25 for each share with a nominal value of TL 1 and TL 24.687.500 has been recorded as "Share Premium" under the shareholders' equity. Commission, advertisement and legal consultancy expenses beared in consequence of initial public offering amounting to TL 1.557.280, has been represented under shareholders' equity after being deducted from premium shares.

Dividend distribution

The companies quoted on the Stock Exchange distribute dividends as per the CMB's Communique Serial II, Number: 19.1 regarding to the dividends, which is effective as of February 1, 2014.

Partnerships, distribute dividends within the framework of the dividend policies to be defined by and upon the decision of their General Assemblies in accordance with the provisions of the legislation. According to the aforementioned communique, there is no minimum distribution rate that has not been determined for the publicly traded companies. Partnerships distribute dividends in the manner specified in their Articles of Association and Dividend Policies. Additionally, the dividends may be paid in installments of equal or different amounts and the companies are able to distribute cash dividend in advance from the profits recorded on their interim financial reports.

Unless the legal reserves are set aside required by the TCC and the dividend is reserved for the shareholders defined by the Articles of Association and Dividend Policy; no decision can be made to set aside other reserves, to transfer profits for the next year and to distribute profits to the owners of dividend shares, board members, employees, and people other than the shareholders and also unless the dividend to be paid out to shareholders is redeemed, dividends cannot be distributed to the people aforementioned.

Equity inflation adjustment differences and carrying value of the extraordinary reserves can be used in capital increase through bonus shares, distribution of cash dividends or offsetting loss. However, equity inflation adjustment differences will be subject to the corporate tax in case they are used in cash dividend distribution.

According to the Board Decision dated 16 March 2015; it's been decided to make dividend payment amounting to TL 12.000.000, based on the net distributable profit after including the deduction of TL 612.966 legal reserves calculated over legal records and addition of TL 610.339 donations and contributions into the consolidated profit calculated based on CMB Communiqué Serial: II, No 14.1.

24. Income taxes (including deferred tax assets and liabilities)

Corporate tax

Necessary provisions are made in the accompanying financial statements in regards to the estimated tax liabilities of the Group's operating results in the current period.

The corporate tax rate to be accrued over the taxable corporate income is calculated based on the taxable income, which remains after subtracting the tax-exempt gain, the income not subject to taxation and other discounts (previous years' losses, if any and investment incentives utilized over preference) and adding the non-deductible expenses, which were expensed during the determination of the corporate income, however, should not be deducted, to the taxable income. The corporate tax rate implied on the profits for the calendar year 2015 is 20% (2014: 20%)

In Turkey, advance tax is calculated and accrued on a quarterly basis. The advance tax rate that needs to be calculated over the corporate income during the taxation of 2015 corporate income by the advance tax periods is 20%. (2014: 20%). Losses can be carried forward for a maximum of five consecutive years so as to be deducted from the taxable income to arise in the years to come. However, losses cannot be deducted from the previous years' profits retrospectively.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)**

24. Income taxes (including deferred tax assets and liabilities) (continued)

Confirmation with the tax authority on the tax amount is not a valid application in Turkey. Corporate tax returns must be submitted to related tax office until the afternoon of 25th day of the 4th month, following the end of the accounting period. In addition to this, the authorities who are authorized for the tax investigation may review the accounting records within five years and in case of a detection of incorrect transaction, the tax amount to be paid may change

In Turkey no taxes are withheld from undistributed profits, profits added to share capital (bonus shares) and dividends paid to other tax payer companies. However, profits distributed in dividend to individuals and non-resident companies are subject to withholding at the rate of 15%.

Turkish tax legislation does not allow for parent company and consolidated companies to fill out a consolidated tax return. Therefore, tax provisions reflected in consolidated financial statements have been separately calculated on the company basis.

24. Income taxes (including deferred tax assets and liabilities) (continued)

Deferred Tax

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported for IAS/IFRS purposes and its statutory tax financial statements. These differences usually arise from the recognition of some revenue and expense items in different reporting periods for IAS/IFRS and tax purposes and these differences are given below. The tax rate used for the calculation of deferred tax asset and liabilities is 20% as of September 30, 2015 and December 31, 2014.

27. Financial instruments and financial risk management

Financial risk management

Group's financial department provides access to financial markets on a regular basis and is responsible for monitoring the financial risks through the reports analyzing them based on their level and magnitude and managing the risks that the company is exposed to. Such risks contain market risk (exchange rate risk, interest rate risk), credit risk and liquidity risk.

The most important determinant of the Group's financing needs; the net working capital requirement, which is composed of the difference of the trade payables, trade receivables, and inventories, is provided by company's capital and short-term bank loans, if necessary. Since the distribution of trade receivables, payment terms, and monitoring and controlling the credit quality is of great importance for risk management, the company continuously monitors customer risks.

Exchange rate risk

The Group's foreign currencies denominated financial instruments are exposed to exchange rate risk as a result of exchange rate fluctuations. As of September 30, 2015 and December 31, 2014, Group's foreign currency position is as follows:

28. Financial instruments (fair value disclosures and hedge accounting disclosures)

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

Judgment is necessarily required to estimate the fair value and to interpret market data. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Group could realize in a current market exchange.

The following methods and assumptions are used in estimating the fair value of financial instruments when possible.

Financial assets

The carrying value of cash and cash equivalents is considered to be approximate to their fair values. The carrying value of trade receivables, after doubtful receivables are deducted, is considered to be approximate to their fair values. The monetary items denominated in foreign currencies are translated into Turkish Lira by using period end exchange rates. Off-exchange financial assets are measured at cost.

Financial liabilities

Foreign currency monetary items are exchanged at year-end exchange rates. The fair values of short-term trade payables and other monetary liabilities are considered to be approximate to their carrying values since they are short term. The fair value of the long-term fixed interest bank borrowings are observed to be approximate to their carrying value when revalued with the fixed interest rate valid as of the date of the balance sheet. The carrying values of short-term bank borrowings are assumed to reflect their current values since they are short term.
