**Subject** : Purchase of chemical facilities in Greece

Polisan Holding previously announced that the Company has established POLISAN HELLAS SA with a capital of €24,000 in Greece and started talks to purchase a chemical facility.

The aforementioned negotiations have been completed as of today and that the POLYETHYLENE TEREPHTHALATE (P E T) GRANULE and PREFORM facility along with its 75,000 m<sup>2</sup> land and 15,000 m<sup>2</sup> closed area owned by ARTENIUS HELLAS SA has been purchased by POLISAN HELLAS SA. While P E T is mainly used in the production of soft drink, water, food and beverage bottles, the target markets defined are Greece, Balkans and Turkey.

The capital of POLISAN HELLAS SA has been increased to €1,400,000 as suggested by the official authorities within the context of the purchasing transaction and has been fully paid out. The total amount of investment for POLISAN HELLAS SA including taxes, all fees and other expenses is €8,675,000.

While the new facility will be entegrated to Polisan Holding A.Ş. system, the facility's periodic maintenance is also being carried out. The facility is targeted to start production in October and realize approximately 100,000 tons of production per year.

Should there be any material development, the relevant information will be publicly disclosed in accordance with the requirements of the related Capital Markets Board Communique.
